

# FULFILLMENT ASSURANCE & WORKFLOW PROCESS SOLUTIONS

## Delivering peace of mind

Clients depend on our teams and technology to reduce costs, streamline workflow processes and create a 360 degree view of the brand. Our online Synergy Platform provides protected access to all of your digital assets, enabling your staff, field sales force, and distribution partners to access, customize, and manage their own communications programs, and fulfill needed marketing materials.

Our secure 100,000 square foot warehouse facility, proprietary software and skilled teams offer everything you need to create a back room service program that is worry-free, easy to set up, simple to execute and predictable to manage. 1Vision allows you to design the perfect fulfillment partner to meet your needs.

### Print On-Demand

Never run out of inventory and reduce storage costs. Customize, order & proof marketing materials online.

### Hand Assembly & Kitting

We are specialized in managing your project's unique hand assembly requirements from marketing materials to POP displays to product repackaging.

### Folding & Shrink Wrapping

From accordion to specialty folds you can count on precision and consistency. We can also meet your protective packaging & bundling needs with automatic shrink wrap technology.

### Online Ordering & Fulfillment

Our online systems enable you to respond to ever-changing market requirements by quickly printing, pulling from inventory, packing, kitting, & shipping.

### Address Standardization & Presort

We can help ensure you receive the best possible postal savings & meet all USPS compliances by keeping up to date on postal rules and regulations while providing the necessary address standardization, address cleansing, & mail sorting.

### CASS Certification

The Coding Accuracy Support System (CASS) enables us to correct bad addresses by matching to the USPS database, and improve the accuracy of the five-digit code and add ZIP+4, and carrier route coding to reduce overall postage costs.

### In-plant USPS Loading

When your project requires USPS inspection & receipt of mail, we can bring the USPS to our plant for a smooth process that bypasses the need for outside postal facilities.
